# ABOUT THE COMPANY

POWER X
EMPOWERING EXCELLENCE

## Definition of Power X

Power X is an innovative climate-tech and energy company that manufactures large-scale battery energy storage systems, develops electric vehicle charging stations (EVCS), and builds marine power-transfer vessels to transport renewable energy.

## What we really focus on

Core Business Segments Battery Manufacturing & Storage: Produces ultra-thin, large-scale stationary battery energy storage systems for grid stabilization, commercial facilities, and industrial applications. EV Charging & Services: Operates fast-charging hubs and vertically integrated battery-backed energy services.

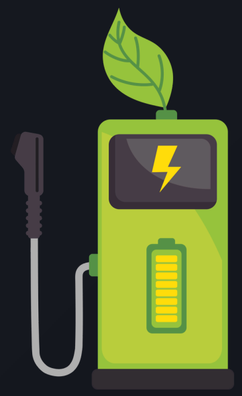

**Advance electricity infrastructure**

**emerging energy technologies**

# INNOVATIONS IN ENERGY TECHNOLOGY

## Energy drives EV Marine

The future of marine electric vehicles (EVs) involves rapid market growth, scaling from an estimated $13.31 billion in 2026 to over $26–$36 billion by the early 2030s

## Abundant energy future technology

More available electricity can support AI, robotics, electric vehicles, desalination, and other advanced technologies

## More sustainable and prosperous

A fully electrified economy powered by sustainable energy could support a much larger civilization without requiring people to use less electricity

# MORE ABOUT COMPANY

Power X Energy Technology Co., Ltd. Established in 2013 in. Focuses on solar energy systems, photovoltaic modules, portable mobile energy storage, and household lithium battery storage manufacturing. Specializes in manufacturing high-speed electric motors, vacuum cleaner motors, and dust-catcher machinery.

**Power X Hypercharger: Ultrafast electric vehicle (EV) fast-charging stations powered by renewable energy sources**

### What we aim to achieve

Promote zero-emission transportation to reduce global carbon footprints and combat climate change. Outline strategies to capture a dominant share of the fast-growing electric mobility market

### Technology-Focused

Detail breakthroughs in powertrains, software integration, and next-gen battery chemistry. Showcase improvements in electric motor design, power electronics, and thermal management.

# TOP EV INTERNATIONAL COMPANIES

Top Global Power Companies GE Vernova (USA): Global leader in electric power generation equipment and diverse energy technologies. NextEra Energy (USA): World's largest producer of wind and solar energy .Siemens Energy (Germany): Major international provider of conventional and renewable power systems. Iberdrola (Spain): Global energy leader and massive renewable electricity producer .Enel (Italy): Multinational public utility managing massive generation and distribution grids .S outhern Company (USA): Large American electric utility and electricity generator .China Yangtze Power (China):

**World's leading hydropower generator, operating massive mega-dams.Constellation Energy (USA): Largest operator of nuclear power generation fleets in the US.Duke Energy (USA): Major regulated electric utility and electricity generator .ENGIE (France): Multinational utility and independent electricity producer active in over 60 countries.**

# POWER IS FUTURE WORLDWIDE

Global Power & Utility LeadersNextEra Energy (USA) – The world's largest producer of wind and solar energy and a top utility by market cap.GE Vernova (USA). Major global equipment and power generation technology provider.Siemens Energy (Germany) - Multinational powerhouse specializing in power transmission, turbines, and grid solutions.Iberdrola (Spain) – A massive global renewable energy leader with extensive networks in Europe and the Americas.Enel (Italy) – Multinational distributor and generator serving tens of millions of retail power customers. Southern Company (USA) – One of the largest American electric utility holding companies.

**Duke Energy (USA) – Major investor-owned electric utility provider in the United States.China Yangtze Power (China) – The largest hydropower company globally, managing massive hydroelectric dam assets. National Grid (UK) – Critical electricity and gas infrastructure utility operating across the UK and US.E.ON (Germany) – One of Europe's largest electric utility service and energy distribution providers.**

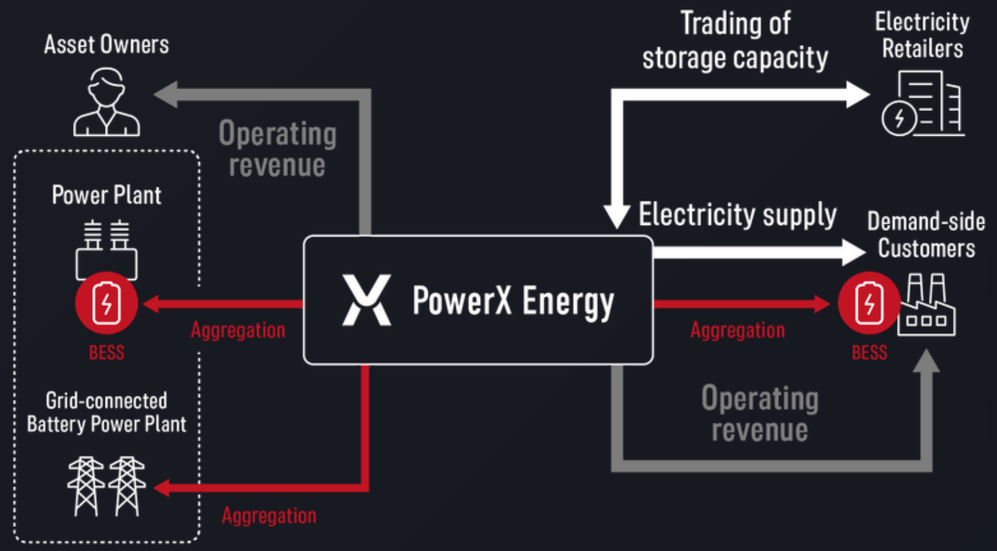

# THE ESSENCE OF ELON MUSK’S ENERGY THESIS IS ESSENTIALLY

Humanity's future is an increasingly electrified civilization powered primarily by solar energy, with batteries, nuclear power and enormous new electrical infrastructure filling the gaps; abundant electricity will enable AI and robotics, which could eventually produce an economy of extraordinary material abundance

- AI deployment is fundamentally electrical power
- Solar could become the dominant energy source

# Achieving Energy Future
## Independence

### Global renewable energy

The Latest energy plan calls for a shift to sustainable power not only to protect the environment, but also strengthen energy independence. Power X will lead this transition with reliable battery power plants essential to achieving this target.

**Energy exists all around us, though not always at the right time.**

# INVEST IN THE FUTURE

Min. Amount

$100

Max. Amount

$10000

# TRADING INCOME

Unlock Earnings of

**0.50% & up to 1.50%**

- Monday to Friday
- Upto 2X Income

# DIRECT INCOME

Join us now - You will earn flat **3%** from **every** **direct** you add in your team

# STAGE INCOME

| | |
|---|---|
| Level 1 | 10% |
| Level 2 | 5% |
| Level 3 | 4% |
| Level 4 | 3% |
| Level 5-10 | 1% |

You need minimum investestment package of **500$** to Activate Level income. At least 1 direct on each level compulsary

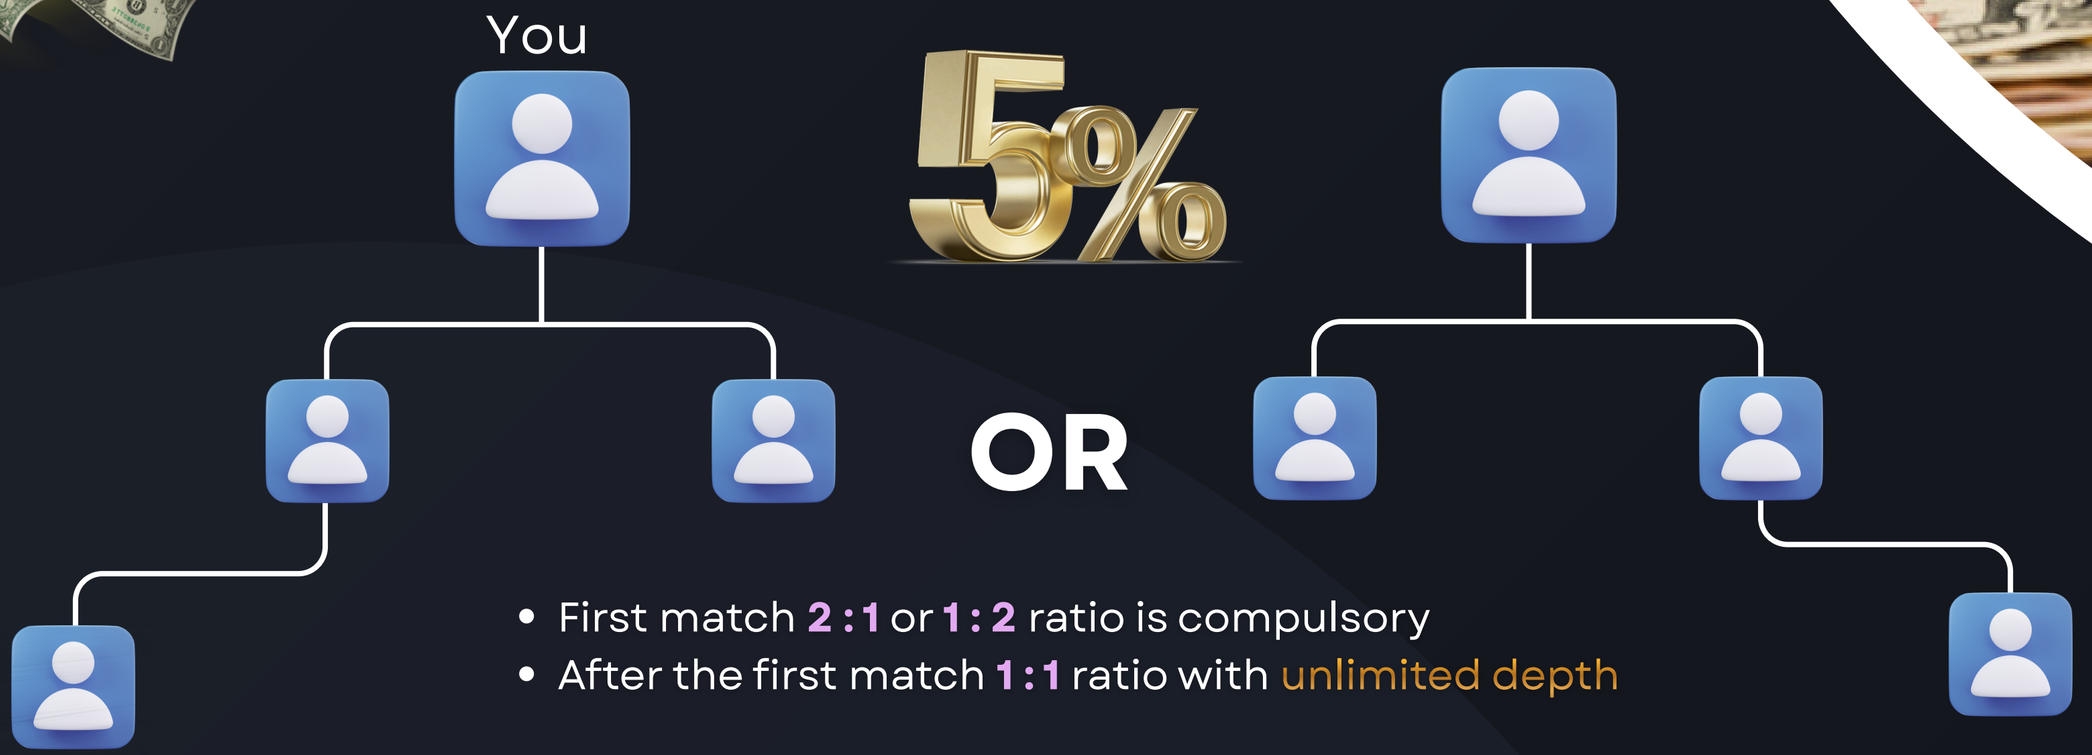

- Self Investment **Min. 500$** Required
- **1 Direct** = 1st Level Unlock
- **10 Directs** = 10 Levels Unlock

# BALANCE INCOME

- First match **2 : 1** or **1 : 2** ratio is compulsory
- After the first match **1 : 1** ratio with unlimited depth

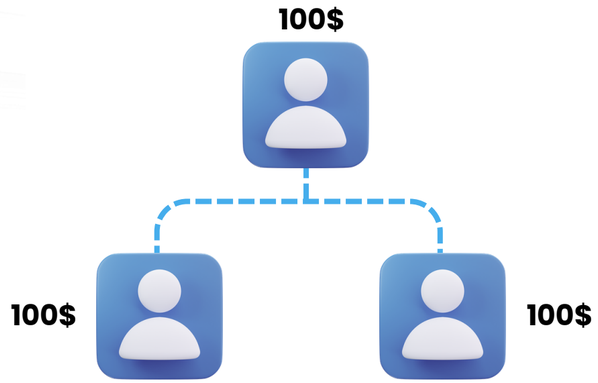

Join us now - You will earn up to **5%** from **every matching** in your team. Capping 3X will be applicable as per package

- On every Matching You Earn 5%
- Closing will be every sunday

# POWER INCOME

**7 DAYS TO GO**

Example

Within **7 Days** of your Joining

If you Add 2 Directs with same or above pack as yours within 7 days from you joining - You will be eligible for Power Income

- 2 Directs within 7 Days
- With Same or Above Pack
- 0.25% Income Increase

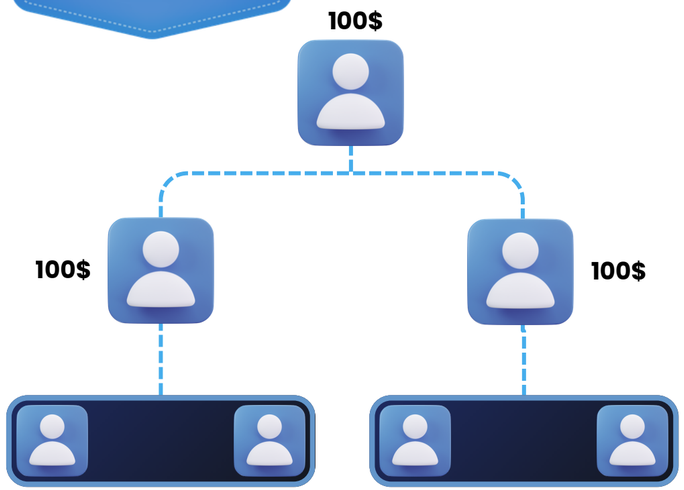

**Total Trade Income**

# POWER X INCOME

**14 DAYS TO GO**

Example

Within 14 **Days** of your Joining

Create a team as shown above diagram with same or above pack as yours within 14 days from you joining - You will be eligible for Power Income

- Demonstrated team within 14 Days
- With Same or Above Pack
- 0.25% + 0.75% Income Increase

**Total Trade Income 1%**

# POWER MAX INCOME

Create a team as shown above diagram with same or above pack as yours within 21 days from you joining - You will be eligible for Power Income

→ Demonstrated team within 21 Days

Total income will be provided & distributed in **4 weekly** installments

Turn Opportunity into Potential Growth

Closing will be done Monthly

# Why to Invest In **Power Energy Future?**

### Demand for energy is increasing

Investing in the energy and power sector is a promising long-term opportunity because rising electricity demand, renewable energy growth, electric vehicles, industrialisation, AI, and expanding infrastructure will continue to increase the need for reliable and sustainable power.

- Renewable energy expanding rapidly
- India has particularly strong growth potential
- AI needs enormous amounts of electricity

# TERMS & CONDITIONS

POWER X
EMPOWERING EXCELLENCE

- Trade income will be active from monday to friday
- Balance income closing will be done weekly
- Divendnt income closing will be done monthly
- Trade income can be earn for up to 2X
